- 1 **Due to stagnation Scientific Assistant gets first promotion after the completion of 20 years of regular service. Hence this service period should be considered for combined regular service for all promotions.**
- 2 **If Assessment has to be introduced in Group A promotion cadre then MFCS should be made applicable to the Group A promotional posts.**
- 3 **The Group A promotional and Group A scientist post should follow a similar screening pattern.**
- 4 For **SO-I** combined service should be considered i.e. **SA+AM-II+AM-I=13 years** for promotion.
- 5 For **SO-II** combined service should be considered i.e. **SA+AM-II+AM-I+SO-I=15 years** for promotion.
- 6 For **SO-III** combined service should be considered i.e. **SA+AM-II+AM-I+SO-I+SO-II=17 years** for promotion.
- 7 This union had earlier represented to IMD as well as MOES on 02.09.2015 and it was agreed to approve the nomenclature/designation "METEOROLOGIST A to E" by the Joint Secretary MOES, the same may kindly be considered while finalizing the recruitment rules or else following suggestion may be accepted .
